FALLEN WHEN IM FLYIN'

Been coming a long long way forever
Gonna miss it when I'm gone
There's a highway that I've driven never
Depending on which road I'm on

There's a freedom in the wind
Pushing you on like a friend
There's a voice inside that quietly whispers
Keep rolling along till the end

Read every page enjoy every minute
Don't let a memory pass you by
Smile and laugh the moment you're in it
You never know when your life will be high

In the clouds is where I'm happy
And you ground me from fallen when I'm flying
through the sky
Woah woah through the sky

Sometimes the fire burns forever
Other times its just a pilot light
When I feel it going down I surrender
To try and get the feeling right

Above it all I'm scared
Finding direction in the air
If I could find something to hold onto
When the only thing to do is push through

Something positive is coming
Now that I've marked my charted course
Ill probably never feel like rising
Till my paths the same as yours

If I hide away no one will find me
Cause I feel I'm always on the run
What I'm searching for is a sight to see
But soon my search will be done

LOVE YOU

We've been going for a year and I feel fine
Feels like I've known you for longer than a lifetime
I like it when you kiss me when you call me baby

Well you're talking bout a day that's a long time
I cannot deal without your heart in mine
Say we need to take some time to think about love
Well I already know the answer

Oh I want you to love me baby and I wanna love you
The way you make me feel right now it feels like I'm in
love with you
And I want you babe oh I want you all the time
I love you

I just wanna love you
And even though we're apart
I still love you more than words
I use to dream of this girl
Never knew that girl was you

If you could see me you'd know how I feel
If you could see me you know id be real
If I could only be with you
If you could only see me you know id be true

Oh love you babe, love you baby

You said we'd always be together
Then why am I sitting alone

HOLES

Take this hole outta me
Please please please
Take this hole outta me
Please please please
Cause my baby drives me crazy constantly

I've taken life outta you
Through through and through
I've taken life outta you through and through
And I may have driven you crazy outta me

Because the dusk doesn't come before the dawn no
no
And the sunset doesn't fall in my life no more
See its a simple way to paint a black and white
conversation
Take this hole outta me

I've tried to hold on to you
Through through and through
I've tried to hold on to you
Woah through through and through
But I may have driven you crazy out on me

KEEP THE LIGHT ON

Driving home to you, will the door be locked?
Can I make it through? Cause there's something
off
All up in my head like a demons on me shoulder

Whisper in my ear, telling me the lies
Living in my fears, fire in my eyes
Only thing I know, is to keep pushing ahead

Keep the light on
Keep the light on
Keep the light on
Keep the light on

The way you look at me, as I lie to you
Gotta set you free, nothing else to do
All up in my head, like an angels on my shoulder
Preaching about love, how its all the same
Give a bit of grace, all within the pain
Only thing I know, is the keep pushing ahead

ADDICTED

Send me an angel, send me a prayer
Send me to heaven, I'm almost there
Send me forgiveness, send me a sign
Send me something, to give me peace of mind

Get me outta this hell, give me more of this drug
I think I'm addicted, addicted to your love

I've been weary, I've been afraid
Of losing something, that I've gained
Tell me I'm nothing, tell me I'm saved
Tell me everything is worth, what I've made

Get me outta this hell, give me more of this drug
I think I'm addicted, addicted to your love

I use to have passion, I used to have skill
I used to be a dreamer, living for the thrill
Show me understanding, show me compassion
Answer my questions, I keep on asking

Get me outta this hell, give me more of this drug
I think I'm addicted, addicted to your love

I can't take it, I can't run
I'm committed to all I've done
I've got to be better, I've got to find light
I've got to see a way to get through the night

Get me outta this hell, give me more of this drug
I think I'm addicted, addicted to your love

WE CAN CHANGE THE WORLD

We can change the world
One person at a time
We can change the world
Everything will be just fine

Its all about love in everything you do
Its all about love to everyone who hurts you
Love to the sinners and the poor
I used to think I wanted more
But its all about love

CROSSROAD

Standing half a man, needing to be fed
Don't know how much longer, I stand until I'm dead
I might die of my own flesh, or of another bone
I might die of weakness, leaving me all alone

Oh I'm wounded, I'm sick and I am sore
I'm standing weary and tattered and torn
Standing at a Crossroad
I am walking on, the Crossroad

Carrying heavy burdens, their digging into my back
Wish that I could drop them and save me from this
attack
Feeling like I might break down
Break down and cry
I just hope I'm happy, happy if and when I die

MAN ON A MISSION

Wherever you go there your are
Beautiful wife, beautiful life, beautiful kids
I don't know how I've come this far
Had a head load not so long ago, I was drench in sin

I made a point to be happy
Put all my worries on a shelf
I don't care if it sounds a little sappy
But I made my choice its mine to live
You gotta give it up with your your heart to give

Cause I'm a man on a mission
To change this world for the better and I think that's fine
Said I'm a man on a mission
To bring happiness to the world and I
I'm a man on a mission
And in the process maybe I'll turn back time
A man on a mission
And if love's a chorus, maybe it's the perfect line

I'm a tender soul inside
All my worries have faded for now
Its in the clouds I confide
Raining or snowing I'm just fine

JEEP TRUCK

I want a jeep truck, so I can feel cool
Drive it on the highway, drive my kids to school
I want a jeep truck, so I can feel cool
Drive it on the back roads, drive my kids to school

I want a jeep truck, so I can feel cool
Put my keys in my pocket, fill it up with fuel
I want a jeep truck, doo doo doo doo
With my arm out the window, I would feel cool

BET ON MYSELF

I can drive myself crazy
Think myself in on a haze
For sure no or maybe
Depending on the day
With a full tank of gas and the pedal to the metal
and my hand on the wheel
I will take this route spend my days wondering
how I feel

I've never been down this road
But I believe I know my course
Towing nothing but my load
Wondering what I'm chasing it for
I've never been much of a gambling man and
that's just fine
Maybe I can bet on myself this time

I could turn around now
But what's the point
Wipe that sweat off my brow
Just flip a coin
With a full tank of gas and pedal to the metal and
my hand on the wheel
I will take this route spend my days wondering
how I feel

Well it's a been a long year
My body shows it's age
I love faced a couple fears
Time to turn a new page
With a full tank of gas and pedal to the metal and
my hand on the wheel
I will take this route spend my days wondering
how I feel

WHAT I USED TO BE

So much wrong in the world today
Turning the page from yesterday
Into reality
So much I should change right now
But only so much time allows
Me to focus on what I've seen

There is beauty in the darkness
There is pain in the light
I should wait for fruit to ripen
I should make everything right

Please Take me away
into another place
I can view to keep me alive
Send something good my way
give me the words to say
Never let the buried pain arise
I just wanna be free from what I used to be

I just need to take a break
Try to smile and make it fake
Got to get away
Just a little time I need
Even when I'm blind I see
All the shadows that will stay

I don't wanna let it all go
When i feel it I think i'll know
So put all inside of me
Cause I just wanna be free
From what I used to be

I wish that luck would get me thru
Nothing left to hold onto
I need solid ground
Only thing I used to dream
Pieces of the colors I've seen
But it's all black and white now

ALL BEEN DONE BEFORE

Well I've tried to be original and just speak the truth
Attempted to be cool for me and blame it on my youth
At the end of the day I beat myself up for going way too hard
Or not enough it's like a boxing match my ego has been scarred

So I get down on my knees to pray
Ask the lord for just one more day

Cuz it's all been done before
No use trying anymore
Just shine my light how it should be
Let myself be Free

I'm surrounded by love but I'm still lonely
I've used up my Soul cuz it's all I have to give
It's breaking my heart that home and living Holy
It's my life and it's all I've got to live

FLYIN' IN MY DREAMS

The sun shines down on this lonesome hill
I look around and I can feel the changes still
Its not easy going through this thing they call life
But I will be lifted, lifted to a higher light

I wish that I could fly away, yeah
Spread my wings and soar into my dreams
Birds fly high, but not as high as me,
Cause I'll be flying in my dreams

The rain is coming down, its falling on my head
I'd rather be anywhere, anywhere else instead
Why rain makes me sad well something I don't know
But this rain will be turning, turning into snow

When I think of the way I've been going
Well I feel fine
When I think about my dreams
I get a feeling that's divine
Where I will be 5 10 years from now
Well that's something I don't know
But I know, I know one thing

FOUND THE GIRL

Doo doo doo doo doo
I have found the girl
Found the girl, found the girl, found the girl

You wear satin pants
Oh you ballroom dance
You wear satin pants
Satin pants, satin pants, ballroom dance

U GOT DA TONGUE GOIN'

Alight y'all let me tell you a little thing about tongue's going
Talking bout human tongues, baby tongues, dog tongues, giraffe tongues, here we go

U got da tongue goin

I remember when my little girl was a few months old
She couldn't help herself, she was exploring her tongue and she had it goin, you know what I mean

Now Siggie the piggy, she's a whole different story
Cause she's got her tongue goin at all times
She's got the pitty smile, she's got licking up her water, eating her food and if she gets really hot after a walk in the summer, Siggie the piggy always got her tongue goin

Now giraffe tongues when you go to the zoo, when you go to the zoo, sometimes you get to feed them with the lettuce, or whatever you get to feed em and those big old black giraffe tongues are kinda weird kinda freaky, but giraffes always got their tongues going too, you know what I mean?
